19 KILLINGWORTH JUNIOR TOURNAMENT

21 (Tuesday) PAIRS – club competition, 2 dozen arrows at 20y, 30y & 40y. Sighters at 6.30pm prompt

25 Westerns

On Saturdays, we meet at the field at 1.00pm for a 1.30pm start. Please ensure that you arrive in good time to help set the field up and start shooting on time. If you don't know what to do - ASK. Don't forget that it all needs to be put away at the end of shooting too. As with indoors, when shooting is finished on the target you are using, please put it away before putting your equipment away. All members are expected to help.

We try to encourage people to shoot more rounds to gain Handicaps and Classifications (a full list of all rounds is displayed in the hut). A "Round Rota" will operate on Saturdays. This will be a nominated round to be shot and will vary from week to week, and hopefully include rounds we rarely get to shoot. A list will be on the notice board and on the web site. Members do not have to join in with this, but we hope you do, the field is big enough to cater for those who just wish to practice, but please don't hold up the ones who are shooting rounds. As we have more time on Saturdays and occasional Sundays, these will be the main club sessions to shoot longer rounds (6 dozen arrows or more), some shorter 4 dozen rounds may be shot on evenings, but the light doesn't always last. It is not always possible to shoot 12 dozen rounds on Saturdays (time) so Sundays may be the best if you want to shoot these rounds and not be pushed for time.

Please don't jump from target to target without finding out first if people on those targets are shooting a round, or if there is room for you to shoot – 4 or 5 on a boss is quite enough.

A reminder: don't draw a bow, with or without an arrow in, except on the shooting line and towards the target.

It will help considerably if targets are put out on the correct marks from left to right. Do not use the first of the marked lanes, it is only used for tournaments. Archers shooting 100y & 90m should put targets to the far right. Junior, Novice and VI's targets should be in the centre of the targets put out and not on the ends. A plan of the field layout is available in the hut. Please ensure the safety tapes are set out in accordance with the plan.

ALWAYS CHECK HOW MANY ARROWS YOU HAVE IN YOUR QUIVER BEFORE YOU START SHOOTING. FOR INSURANCE REASONS, ALL LOST ARROWS NEED TO BE FOUND BEFORE LEAVING THE FIELD. DON'T BE EMBARRASSED IF YOU MISS THE TARGET AND CAN'T FIND YOUR ARROW(S), WE HAVE ALL DONE IT. TELL YOUR TARGET COMPANIONS AND THE FIELD CAPTAIN, PEOPLE ARE ALWAYS WILLING TO HELP TO LOOK.
